He Is Rolling Up a Big Vote in San Francisco.

Judge Henshaw Is Far Ahead of His Ticket.

Temple Will Probably Get a Place on the Supreme Bench.

Enormous Republican Gains Are Being Obtained in the Eastern States.

Great enthusiasm prevails in Republican circles today all through the country. The next House of Representatives will be overwhelmingly Republican, and it is believed that the Senate will be reorganized on similar party lines.

New York sends a delegation to Congress this time of thirty Republicans to four Democrats, a Republican gain of 15. Morton's plurality for Governor has reached 150,000.

Colorado and Kansas have abandoned Populism, and gone Republican by good majorities.

Connecticut, Iowa, Michigan, Massachusetts, Illinois, Washington, Utah, New Jersey, Ohio, South Dakota, West Virginia, Wisconsin, Indiana, New Hampshire, and Pennsylvania are in the Republican column.

Maryland is returning two and possibly four Republican Congressmen.

Nebraska shows Republican gains, and Republican inroads have been made in some of the Southern States.

The next House of Representatives will contain a Republican plurality of from sixty-five to seventy. This is conceded by Chairman Faulkner of the Democratic Congressional Committee.

BUDD GAINING.

Latest Figures From All Over the State.

Special to The Tribune.

SAN FRANCISCO, November 7, 3 P. M.—Advices to this hour from all over the State give as follows:

In 713 precincts, including 222 from San Francisco, out of 2274 for the whole State, representing a total vote of 122,668, Estee has 38,847, Budd 46,272, Webster 15,142.

In the same territory Henshaw for Superior Judge has 33,805; Torrence, 27,149; Van Fleet, 23,759; Temple, 34,045; Murphy, 25,813; Bridgeford, 28,703.

Democrats claim Budd is elected. Half the city vote counted gives Budd 6500 plurality.

Returns from the State outside of San Francisco are too indefinite to serve as an indication. The Republicans will elect five Congressmen. Jackson Temple and Henshaw are several thousand ahead in this city.

THE EAST.

NEW YORK, November 7.—The returns for this city and Brooklyn on the Greater New York scheme indicate majority votes having been cast in favor of consolidation 118,000 for and 83,000 against.

In Brooklyn 54,695 for and 52,027 against.

The scheme proposes to consolidate New York and Brooklyn, the whole of Richmond and Kings counties, with portions of Westchester and Queens, an area of 317 square miles, with a population of 3,000,000.

TOPEKA, Kan., November 7.—Chairman Breidenthal of the Populist State Central Committee at noon today said: "We are beaten. I feel as if I had been through a threshing machine." He conceded that the Republicans had carried the entire State ticket and every one of the eight Congressional Districts, with a possible chance for Populists in the Seventh (Simpson's) and Sixth (Baker's) Districts. The Republican State Central Committee say Morrill will carry Kansas by 31,000 plurality.

DENVER, November 7.—The returns come in slowly. According to the latest estimates, the Republican State ticket has plurality of 20 000.

One hundred and forty of 167 precincts of Arapahoe county, including Denver, give McIntyre, Rep., 1597 majority over Waite. Shafroth, Rep., is elected from the First district; probably Bowen, Rep., second.

Legislature—54 Republicans; 43 Democrats and Populists, 3 doubtful.

CINCINNATI, November 7.—While the Republican plurality in Ohio is almost double McKinley's plurality of 80,000 last year, the total vote for the Republican ticket falls several thousand short in vote for McKinley, showing the result is due to the Democratic vote not coming out.

ST. LOUIS, November 7.—Revised returns for St. Louis show the election of Cobb, Democrat, Joy, Republican, and Bartholdt, Republican.

There is no doubt that the Democratic State ticket is elected.

The Legislature is Democratic by forty majority.

In the Fifteenth district, C. G. Burton, Republican, is elected instead of Morgan, Democrat, while in the Fourth, the result is in doubt, with chances in favor of Crowther, Republican, instead of Ellison, Democrat.

CHARLESTON, W. Va., November 7.—Governor McCorkle gives up the State. He says the Republicans have a majority in the Legislature. Elkins will be the next United States Senator.

SANTA FE, N. M., November 7.—Partial returns indicate election of T. B. Catron (Rep.) for Delegate. Legislature still in doubt, with chances favorable to Republican majority.

ST. LOUIS, November 7.—If the returns coming in late in the afternoon to State Democratic Committee from country districts continue as at present to the end, Missouri has gone Republican.

The Democratic State Central Committee announces this afternoon that the Legislature is so close as to be practically lost, and the Republican candidates for Supreme Court Judge, Superintendent of Public Schools and Railroad Commissioner may be elected.

ST. JOSEPH, Mo., November 7.—Special to the *News* from Jefferson City says Governor Stone concedes the Legislature to the Republicans.

REDFIELD, S. D., November 7.—South Dakota Republicans elect 100 out of 126 members of the Legislature. A Republican United States Senator is assured.

CHICAGO, November 7.—Returns today showed continued gains for Republicans on the State ticket, headed by Wolff for Treasurer; indications were for a Republican plurality of 100,000.

Every man on the Republican county ticket is elected by pluralities ranging from 14,000 to 25,000.

The State Legislature will be Republican, insuring a Republican successor to Cullom.

Surprising Republican gains indicate each of the seven Congressional districts in the city are Republican, with the possible exception of Congressman McGann's district.

Some Democratic leaders conceded his defeat today.

LEXINGTON, Ky., November 7.—The Seventh district (Breckinridge's) official and unofficial returns up to 10 A. M. give Denny, Rep., a majority of 100.

NEW ORLEANS, November 7.—Returns from three sugar districts leave no doubt of the election of Democrats. Chairman Behren says there has been wholesale intimidation and fraud and the Republicans will contest. The Louisiana delegation of six will be solidly Democratic.

OMAHA, November 7.—Only one-third of the State has been heard from. Figures received indicate the election of Holcomb, Populist-Democrat for Governor, by a small plurality. Republicans have probably elected five or six Congressmen, with result in the Sixth district still in doubt. Outside of the Governor the Republican State ticket is elected and the Legislature will probably be Republican on joint ballot.

CHARLESTON, W. Va., November 7.—The defeat of Wilson was conceded by the Democratic managers today at noon.

Republicans claim Dayton's plurality to be not less than 1600.

CHICAGO, November 7.—The Populist total vote in this city is estimated from the returns of about half the voting precincts will approximate 30,000.

While no Populist candidate was elected, the party's leaders say they are greatly encouraged.

CHEYENNE, Wyo., November 7.—Incomplete returns from every county of Wyoming show that Frank W. Mondell, Republican candidate for Congress, will have at least 2000 plurality.

William A. Richards for Governor is elected by at least 1500.

Chairman Vandevanter estimates that the Republicans will have thirty-nine of fifty-five members of the Legislature and will elect two Republican United States Senators.

LEXINGTON, Ky., November 7.—Owens (Dem.), claims election in Ashland district by 50 to 100.

Complete semi-official returns from six counties and partial returns from two others give Denny 48 plurality. Five precincts to hear from may wipe out his present advantage.

ST. PAUL, November 7.—Returns from all but nine precincts in St. Paul give Nelson (Rep.) 5116 plurality, latest estimated vote. All Republican candidates for Congress seem to have won.

WASHINGTON, November 7.—The Republican Congressional Committee has given out estimates claiming that in the House of the Fifty-fourth Congress Republicans will have a majority of delegations from thirty States, Democrats twelve, Populists one, with Maryland divided evenly—giving Republicans more than two-thirds majority by States should the next Presidential election be thrown into the House.

CHICAGO, November 7.—Chairman Tanner says the Republicans have a plurality in Illinois of over 125,000. They have elected nineteen Congressmen out of twenty-two, with two remaining still in doubt.

With six precincts to hear from, Congressman McGann was nine votes behind Belknap, Republican.

BOISE, Idaho, November 7.—The entire Republican State ticket was elected by 2000 plurality or more. Legislature returns are still too incomplete to be of value, but they indicate the Legislature will be Republican. The new Mormon vote seems to have gone heavily Republican. The Populists have lost in some of their old districts and have gained in some sections where they had no foothold two years ago.

DETROIT, November 7.—Reports up to 1 o'clock indicate that of the 100 Representatives in the Michigan Legislature, ninety-seven are assuredly Republicans, two Democrats and one Democratic-Populist. Of thirty-two Senators, thirty-one are Republicans.

News of the latest returns on Governor show a plurality of over 85,000 for Rich.

WASHINGTON, November 7.—The loss of Kansas, New Jersey and South Carolina reduces the present Democratic total in the Senate from 44 to 41. The present Republican strength in the Senate of 38 promises to be increased by Senators from New Jersey, Kansas, Montana, Washington and Wyoming, the last three being vacancies. The Republicans are likely to lose Nebraska. This makes a gain of 5, and loss of 1, or net gain of 4, raising the Republican total to 42.

Populists now have three Senators. Returns indicate gains for them in South Carolina and Nebraska, making their total five. Senators Jones and Stewart of Nevada have of late affiliated with the Populists, so Populist strength may be increased, and Republicans be decreased by two. Estimate of next Senate by Chairman Babcock gives Republicans forty-four out of eighty-eight Senators. He counts upon Senator Peffer's co-operation to organize.

WASHINGTON, November 7.—Chairman Babcock of the Republican Congressional Committee claims the Republicans will organize the next United States Senate. His information is that the next Tennessee Legislature will send a Republican to succeed Harris. Babcock also has a dispatch stating that Denny, Republican, in Seventh Kentucky District is elected by 225. This is Ashland district, formerly represented by Breckinridge. A dispatch from the chairman, Holman, South Carolina State Committee and Congressman Settle says: "We have carried the State if we can hold it."

Senator Faulkner, the chairman of the Democratic Congressional Committee, concedes the House to the Republicans by 65 to 70 plurality.

The Senate will not be Republican, he says, unless the party carries Tennessee, which is still uncertain, or unless Senator Pfeffer votes with the Republicans.

NEW YORK, November 7.—The result of the elections was reflected in the strong market at the Stock Exchange, nearly all shares showing a material advance for opening transactions, except Manhattan, which broke 2½ on purely local issues. Sugar was advanced 2⅛; subsequently on realization sales it broke 2.

NEW YORK, November 7.—Bartlett (Dem.) is elected to Congress from the Seventh district, instead of Ford (Rep.), as previously reported.

The complexion of the Congressional delegation from New York State, according to nearly complete returns, is 30 Republicans, 4 Democrats. The Republican gain is 15.

OGDEN, Utah, November 7.—*Bulletin*—The third edition of the Salt Lake *Tribune* estimates Cannon's (Rep.), for Congress, majority at nearly 2000. Salt Lake county—Cannon, 5609; Rawlins, 4397, and every Republican in the county elected.

WILMINGTON, November 7.—Delaware complete gives the Republicans a majority of 1200. Republicans elect Governor and Congressman. The Legislature will stand, 18 Republicans, 12 Democrats. This insures a Republican successor to Senator Higgins.

SUMMARY.

New York State—Morton, Governor by 150,000. The Legislature is Republican on joint ballot.

Colorado—The Republican State ticket is elected by a majority of 18,000.

Connecticut—The Republicans have carried the State by a good majority.

Delaware has probably gone Democratic by a narrow margin.

Iowa has gone Republican by a large majority.

Michigan—The Republicans carry the State and Congress.

Massachusetts — The Republicans sweep the State by 50,000 majority.

Illinois—The Republicans have carried the State by a large majority.

Nebraska—The result is uncertain. The returns as far as heard from indicate Republican gains.

The South stands solid as usual.

Washington State—Probably Republican.

Nevada—Result for Governor in doubt. Newlands (silver) for Congress, probably elected.

Minnesota—Republicans elected Governor by large majority.

New Jersey—Republicans have a majority in the Legislature on a joint ballot and will elect a United States Senator to succeed the Democratic Senator. Congressional delegation, probably, Republican, 5; Democrats, 3.

North Dakota—Doubtful. Democrats probably elect Governor.

Ohio—Republicans carry the State by a large plurality.

South Dakota — Republicans elect the State and Congressional ticket by 12,000 plurality.

West Virginia goes Republican. W. L. Wilson is defeated for Congress.

Kansas—Result in doubt; Republicans probably elect State ticket.

Wisconsin elects State ticket and eight out of ten Congressmen.

Indiana Republicans make a clean sweep; majority 40,000.

Maryland Republicans elect two Congressmen, possibly four.

New Hampshire Republicans elect Governor and Congressman.

Pennsylvania—The Republicans elect State ticket, also Republican Congressman in Randall's old district.

DES MOINES, Ia.—Des Moines leading Democrats says Republicans carried the State 50,000 plurality. Populists may elect Claggett and Shea. Hayes alone is saved. Weaver badly left. Register, Rep., says Iowa is Republican by the largest plurality ever given. Ten Republican Congressmen elected, probably making it unanimous.

CHICAGO.—Returns gathered by the Associated Press indicate a plurality of 100 000 on the State ticket, and 35000 in Cook county. Six out of seven Republican Congressmen in Cook county with the probability of the seventh.

INDIANAPOLIS.—From latest returns, the Republican majority on the State ticket will be between 35000 and 40000.

Republicans will elect Congressmen in First, Second, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh, Twelfth, and Thirteenth Districts.

Third district doubtful by both parties.

Fourth district close.

THE COAST.

SAN FRANCISCO, November 7.—The count of votes in California is proceeding in the slowest manner ever known here, and at noon today there is absolutely no means of knowing anything more about the general result than was known late last night. Little or nothing has been received from the large counties like Alameda and Los Angeles. The situation has not changed since 3 o'clock this morning when, from the returns at hand, the election of Budd (Dem.) for Governor seemed certain, as did also the election of five Republican Congressmen. The result in the First district is in doubt, with Barham, Rep., leading. Maguire, Dem., is re-elected in the Fourth district. Absolutely nothing definite is known about the Legislature, and it will probably be late tonight before any definite figures can be received.

SAN FRANCISCO, November 7.—Seventy-three complete precincts in the First Congressional district give Barham, Rep., 3599; Geary, Dem., 3219; Quigley, Pop., 1421.

VENTURA, Cal., November 7.—The election in this county passed off quietly, but was most hotly contested. The greatest interest centered on the county ticket.

There was a full vote polled. Owing to the blanket ballot and difficulty in counting, the returns are coming in slowly, but eight out of twenty-two precincts having completed their count at this hour. Those that have come in show that the Republicans have gained considerably over the vote of 1892, and that the Democrats have lost, while the People's Party have barely held their own.

The chairman of the Republican County Committee claims the county for Estee by 400, while the Democrats concede 275.

McLachlan for Congress is running just about even with the head of the ticket. Bennett (Rep.) for the Assembly is elected.

On the county ticket the Democrats

Ogden and Ellsworth Will Be the Judges.

Schaffer Is Now Leading in the Race for Sheriff.

H. P. Dalton so Far Running Ahead in the Contest for Assessor.

The count is progressing slowly throughout the county. It is far from complete, but it has progressed far enough to enable us to forecast pretty accurately the positive result in some cases and the probable result in others. Complete returns have been received from thirty-two precincts, seventeen of which are in the city. These show the following results:

Estee has fallen behind his ticket and Budd has run ahead of his. Consequently, the majority of Estee over Budd is small.

L. H. Brown is running strong for Secretary of State, having nearly two votes to Maddox's one.

Radcliffe for State Treasurer is running equally well ahead of Castro, Dem.

The same may be said of Ward, Rep., against McGlade, Dem., for Clerk of the Supreme Court.

For Associate Justices of the Supreme Court Henshaw has received three votes to Murphy one, and Temple has a good majority over Torrence, while Van Fleet is well ahead of Bridgford.

Morehouse is running behind Wells for the Board of Equalization.

Hilborn has a fair majority over English, but the latter is running ahead of his ticket.

Judges Ellsworth and Ogden will beyond doubt succeed themselves on the Superior Bench.

The contest between Schaffer and White for Sheriff is very close, but at 2 P. M. Schaffer was slightly in the lead.

Charles H. Spear will be the next Recorder.

Frank Jordan is in the lead for County Clerk, but Rosborough is pressing him closely.

James C. Barber is sure of the Tax Collectorship.

Myron A. Whidden is also a sure winner.

Next to the Shrievalty the District Attorneyship is the hottest fight in the list. Snook, Rep., and Garrity, Dem., are running neck and neck.

W. H. Knight has an ample majority for Public Administrator.

J. P. Garlick is running ahead of all competitors for the office of Superintendent of Schools, with Frick a close second.

Dalton's majority for Assessor cannot be overcome.

J. W. Laymance is gaining ground in the contest for the Treasurership.

Dr. Baldwin is in the lead for Coroner.

Nusbaumer has the Surveyorship fight well in hand.

Eli Denison and Bullock are having a close race in the Twenty-sixth Senatorial district, the former being slightly ahead.

O'Neill (Dem.) is now leading Beard (Rep.) in the Twenty-eighth Senatorial district.

Mendenhall is giving Fassett a hard race in the Forty-sixth Assembly district.

Waymire has undoubtedly been elected in the Forty-seventh Assembly district.

It looks Gay in the Forty-eighth Assembly district.

In the Forty-ninth Assembly district McDonald (Dem.) is at present leading Collins (Rep).

North will represent the Fiftieth Assembly district.

Dodge has a good majority in the Fifty-first.

In the Second Supervisorial district Brown (Dem.) is leading Talcott.

Church is ahead for the Supervisorship in the Third district.

Allen and Wood will, without doubt, be the next City Justices of the Peace, and Justice Clift has been elected by a good majority as Township Justice.

THE "GOOSE AND GRIDIRON."

Where Free Masonry Was Revived in London.

Trade, that great "improver" of the metropolis, is about to swallow up another of those old landmarks so dear to antiquaries, so interesting even to the general public which runs and reads. Ere long the "Goose and Gridiron" will probably disappear down the capacious maw, so to speak, of a well known firm in St. Paul's Churchyard, for whose premises the site of the old hostelry is, or will be, wanted.

There is nothing remarkable now about the outside of the old house. Its present exterior is of the usual sedate and uninteresting style of the latter part of the last century, and an escutcheon, bearing the date 1786, surmounted by a mitre and the letters "T. F.," undoubtedly marks the period of the present front. Not long ago, however, there was also to be seen over the large lamp which hung over the door one of the most curious of inn signs of London, the sign of the house, the "Goose and Gridiron."

This old hostelry is historically connected with the Free Masons, for in it in 1717 Masonry was revived, and the very first grand lodge of the world founded. Of the taverns in which the four lodges then in England worked—the pioneers of English Free Masonry—the "Goose and Gridiron" is the last, and soon it also will disappear.

Before the great fire of 1666 there was a house here, perhaps on this very site, which bore the sign of the Mitre. This Mitre was the first music-house in London. According to the *Tatler*, when the house ceased to be a music-house the succeeding landlord, to ridicule his former destiny, chose for his sign a goose striking the bars of a gridiron with its foot, thus making fun of the swan and harp, which was a common sign of the early music-houses.

WEDNESDAY NOVEMBER 7, 1894

Now that the election is out of the way let the town be cleansed of vagrants, and if there is no other way to do it a revival of the chain gang is in order.

THE curious vote which Altamont cast in the Congressional election of 1892 has been reversed. The record made yesterday was English, 52, Hilborn, 10. It was the other way two years ago.

"The Tribune in the Campaign

The election is now over and the choice of the people has been declared at the polls. All that remains now is to determine by the count what the choice has been. THE TRIBUNE takes some pride in reviewing its own course in the campaign. Its columns have been absolutely free from personalities. It has indulged in no mud-slinging. It has appealed to the intelligence of citizens rather than to their passions or their prejudices. It has assumed, and we believe that the assumption is warranted by the facts, that the average reader of a newspaper is a rational thinking being who is quickly surfeited by personal abuse and who loses all respect for the paper that is a vehicle of irrelevant personalities and defamation, that his mind is open to conviction and may be influenced by a fair statement of fact and a reasonable argument based upon it.

THE TRIBUNE has conducted the campaign on these lines. No matter what the result of the election is, THE TRIBUNE can look back over its course during the campaign without remorse or regret for what it has said and done. It can look in the face of the men whom it has opposed in the campaign without fear of reproach. It opposed their election on strictly political grounds, but its opposition was expressed in a way that must have been unobjectionable to even the intensest partisan. In fact, THE TRIBUNE has demonstrated that a campaign can be conducted on a clean and elevated plane, wherein the voter is educated, and politics is in a large measure dragged out of the filthy pool in which it is, unfortunately, too often submerged by most newspapers.

The 'Trent' Affair Repeated

History has repeated itself in a recurrence of the Trent affair in Oriental waters, the offender being China, and England is again the one offended against. The offense consisted of the boarding of a neutral British steamship —the Chung King—and forcibly removing therefrom a number of Japanese soldiers. England has imperatively demanded the return of the prisoners to the ship, the dismissal and degradation of the offending mandarin and the saluting of the flag of the boarded ship with twenty-one guns. Seven days' grace has been given the Chinese Government to comply with the demand. That part of the ultimatum relating to the return of the men seized has already been complied with. China will, no doubt, comply with the rest without delay. If she does not reprisals will follow, and the British fleet is strong enough in Chinese waters to make it very uncomfortable for the Flowery Kingdom at the present time.

The incident resembles the Trent affair in so far as it was an invasion of a ship bearing the British flag and a breach of the right of asylum. The Chung King was moored, however, to the dock in a Chinese port at the time of the raid by the Chinese soldiers and the seizure of the Japanese passengers. The royal mail steamship Trent was, on the other hand, overhauled by the United States warship San Jacinto, on the high seas, and the Confederate commissioners to France and England Slidell and Mason were forcibly transferred by Captain Wilkes there and then to his ship, under threats of turning his guns loose on the Trent. Although the Chung King was in Chinese waters and moored to a Chinese dock, and although the passengers seized on her deck were soldiers in the service of a country with which China is at war, still England has asserted the neutrality of the property over which her flag flies and the sacred right of asylum. China is in no better condition to deny the claim of the right of asylum than the United States was in the case of the seizure of Slidell and Mason, for she has a foreign war on hand which is draining all her resources, as the United States had a rebellion to deal with which then taxed all her resources to the utmost.

A Political Revolution

The results of yesterday's elections throughout the country are manifesting themselves very clearly today. They record a great Republican victory. They show that a complete revolution has taken place in the public mind regarding national issues. The note which Maine, Vermont and Connecticut struck some weeks ago was a true one, and as a result the next House of Representatives at the National capital promises to be as overwhelmingly Republican as it has been overwhelmingly Democratic during the past two years. The banners of the Republican party have this year penetrated far into the Southern States, and Congressional districts which have been hitherto Democratic to the core have elected Republican Representatives. New York city and State, the very citadel of Democracy in the North, has been handed over to the Republicans by an overwhelming majority. David B. Hill has been buried under a plurality of at least 100,000 votes. Ex-Mayor Grant and Tammany Hall have been downed. The evidence drawn out by the Lexow Senatorial Commission of the corruption which Tammany Hall fostered in the metropolis, and by means of which it drew its enormous revenues, was so convincing that the public conscience revolted against its toleration any longer, and the Augean stables have been swept by a new broom.

Illinois has passed over into the Republican column also, notwithstanding Vice President Stevenson's personal efforts to keep it in the Democratic line. Free trade tariff reform has had its brief day. The evils which it has been responsible for have, however, been intolerable to a patient and suffering people, and they have risen in their might in revolt against it. The standard of Wilson of West Virginia, the father of the House Tariff Reform bill, has been lowered with a lot of his warmest supporters of tariff reform on a free trade basis. The meaning of such a popular political revolution is unmistakeable. The country does not approve the kind of tariff reform a Democratic Administration has provided it with, and it will have no more of it. Never has a national administration received a severer rebuke.

The count in this State is so far from complete that it cannot yet be stated with absolute certainty how it stands. So far as the head of the ticket is concerned, it does not seem to have joined the Republican procession. The indications are that Budd has been elected Governor, although the rest of the Democratic ticket has been probably defeated. Estee has been running behind his ticket almost everywhere—that is, taking the vote on Millard, the Republican nominee for Lieutenant Governor as a guide, and Budd has kept ahead of his ticket. Evidently the Democrats traded everything in sight for Budd. The vote for Webster, the Populist nominee, has been comparatively light.

When we come to a review of the contest on the county ticket, the evidences of independent voting are plain on all sides. Party lines have been broken down on almost every hand, and it will take a complete count to determine how many of the candidates for some of the more important offices stand.

LORD DUNRAVEN, the owner of the Valkyrie, the last contestant from across the Atlantic for the America cup, intends challenging for that trophy again. Dunraven is plucky, and there is nothing so admirable in a yachtsman as pluck. He proposes to build a yacht on the extreme water line limit provided in the conditions regulating the cup races, namely, ninety feet in length on the water line. But he proposes, if report be true, to make the selection of a new course as the conditions of the challenge. When Dunraven was over here last year with the Valkyrie, he gave careful study to the subject of sailing courses. He favors Marblehead as the best and most convenient course on the Atlantic coast for the contest, and the Boston *Traveller* endorses the choice. The Sandy Hook course is objectionable for many reasons, but New York will undoubtedly use all its influence to keep the America cup races there nevertheless, because they bring an immense amount of money into the metropolis from all parts of the country and from abroad. Watson, who designed the Valkyrie, is to design the new challenger and she is to built on the Clyde.

THE sale of the controlling interest in the Chicago *Tribune* is said to have been consummated, Joseph Medill being the seller and Melville E. Stone and H. H. Kohlsaat, formerly of the *Inter Ocean*, being the purchasers. It is said that Stone, who is now general manager of the Associated Press, will be the new editor of the *Tribune*. Medill will spend the rest of his days at Los Angeles.

THE late trot between Alix and Directum, in which the latter was withdrawn after the second heat, is now openly charged by the New York newspapers with having been a hippodrome, gotten up by Hickok, Crawford & Co. for the sake of the gate money. Directum was in no condition for a test of speed, but he was an attraction to the gullible public nevertheless, and the hippodromists reaped a harvest.

NOTES FOR WOMEN.

Text of a singular *menu* composed and written by the kitchenmaid in a Scotch country house when the cook was ill and the girl thought it incumbent upon her to fulfill a cook's duties;

First a little soup
Then a little fish,
After that a bunny
On a silver dish
A grouse
A dish of many colors.
Some cheese.
Dessert.
That's all!

Warm water, sea bathing, temperance and outdoor life are curative for hoariness of the eyes. In blear eye—"lippitudo"—there is an exudation of purulent matter from the margins of the eyelids, which are red, humid and somewhat painful, and frequently during the night are glued together by the discharge. Clean water of medium warmth is the best application. Excess in eating and drinking should likewise be avoided and some aperient medicine taken.

If you have the appearance of a felon coming put some hardwood ashes in an old tin cup, pour over them warm water, immerse the end of the sore finger in the ashes, set the dish on some live coals or on top of the stove, keeping the finger in as long as you can, and soak it several times a day. If taken in time it generally prevents a felon from coming if the finger is wet with it often.

Large silver bracelets are worn. They have a mixed roped effect, but are not weighty. The union of polished and dull metals is decidedly valuable in these.

The first step toward the revival of the bustle has been taken. This is shown in the new organ-pipe skirt. It is the skirt of the season and resembles in a marked degree the bustle of the past. The skirt is very full, lined with haircloth, and arranged in four or two box plaits at the back. These plaits stand out prominently and are padded ten inches from the waist line. Over the hips the skirt fits with glove-like smoothness, flaring toward the bottom.

Baroness Adolphe de Rothschild keeps a farm at Boulogne-sur-Seine, just outside the Bois, and here during her afternoons it is her delight to initiate the votaries of fashion into the simple pleasure of rustic life. The guests are welcomed in a Louis XV drawing room, where the furniture is covered with satin brocade of the palest bluish pink hue, and all the knick-knacks and engravings are suggestive of the ancient regime. One of the walls consists of a huge sheet of plate glass, giving views into the cow shed, within which a double row of "milky mothers" browse at their marble mangers. A Breton herdsman and his wife in national costume tend the sleek cattle and make the picture complete.

The Unsolved Problem.

He had spent long years in college and acquired all kinds of knowledge
From smoking cigarettes to reading Greek
And it was said by many that in Hebrew, Eskimo and Latin
With the accent of a native he could speak.

He knew every modern science and for every new appliance
He was able some improvement to suggest
And from bending on a hawser up to criticising Chaucer
Of all the greatest minds he was abreast.

He was charmed with hydrostatics, and in higher mathematics
Not a thing to stump him could he find,
And to prove a line a direction or bisect a conic section
Was but a relaxation to his mind.

But he saw a little maiden after all this store he laid in
The most inviting problem he had met
And he felt it was his mission to employ his erudition
To solve this most inviting problem yet.

So without a bit of shirking he has ever since been working
On the question with an ardor that never tire
Yet with all his application to his deep and great vexation,
He cannot get the answer he desires

DOUBLE BANKING.

A Curious Count in an Alameda Precinct.

ALAMEDA, Cal., November 7.—A singular irregularity is taking place in regard to the counting of votes in the Second precinct, where the following gentlemen have been appointed officers: E. K. Kalis, J. M. Robertson, Ed Shults, F. P. Furey, Charles Metzger, George Diddleton, Adolph Wolmer and Peck.

The total vote cast was 398, and the officers struggled through part of the night with the ballots. Finding, however, that the task was too severe and bade fair to result in another night's work, the board divided up into two lots, and the one made a loose copy of the ballot sheet on a piece of wrapping paper and started in counting votes in this manner, while the other half continued to use the original ballot sheet, thus banking themselves and lessening the work to be done. When the action of the board was observed this morning the matter was reported to the District Attorney's office, as it was feared that it might invalidate the election in the precinct. The action of the District Attorney is now looked forward to with some interest. As it is the count cannot be finished within five or six hours.

"THE TRIBUNE" LEADS.

Its Returns Watched by Thousands of People.

Never at any previous election, either Presidential, State or municipal, has so much public interest been manifested in the result in this city as has been centered on the results in the election of yesterday. No sooner were the polls closed than the crowd began to gather in front of THE TRIBUNE building, where bulletin boards for the display of the returns, as they were being received, had been erected during the day. By the time the first bulletins were posted, the crowd had filled Eighth street from the edge of the staging in front of the bulletin boards on the south side of the street to the buildings on the north side of the thoroughfare. The crowd was so dense that it was impossible for any one to pass through it, and it spread out fan shape to Broadway in one direction and half way to Franklin the other, every inch of ground from which a glimpse of the bulletin boards could be obtained being occupied.

The crowd was naturally mixed. It cheered the majorities for Estee when they were posted; it cheered when the returns were favorable to Budd; it yelled when the bulletin showed to the advantage of White, the Populist candidate for Sheriff. McKillican had his friends there also, and so did Schaffer, and each sent up a deafening chorus of applause whenever the figures put up for inspection warranted an outburst of enthusiasm. The hours crept on, one after the other, but still the crowd remained; still the enthusiasm of the various candidates was maintained; still the cheers of supposed victors rent the air, and not until the electric circuit was cut off, reminding them that the midnight hour had been reached, did the multitude disperse. Even then they invaded the office of THE TRIBUNE to learn the latest footings of the returns that were pouring in from the various precincts in the county, which, although incomplete and uncertain, were accepted as indications of the way the election had gone.

This morning the scene was again repeated, and all day long an enormous crowd has been eagerly scanning the returns which were bulletined as rapidly as received and compiled.

COMPANIONS IN ARMS.

Defeated Candidates Sympathize With Each Other.

This morning Sheriff McKillican and County Clerk Crane met at THE TRIBUNE office and fell into one another's arms in fellow sympathy.

"Well, Crane," sobbed the Sheriff, "I welcome your sympathies. The only difference between us is that your Waterloo came a little earlier and, perhaps, in a milder way. We are now companions in arms and in sorrow," he continued as he gave another sympathizing hug.

All hail Columbus! Behold the great navigator as he lands. The perils of the deep are past. The clouds of fear have vanished. The night of gloom has ended. In the heavens the sun of success shines resplendent. Morning has dawned.

Imperiously the banner of haughty Spain greets the daylight. Upon its fluttering folds are inscribed the destinies of a new world. Its gleaming surface marks a long advance in the evolution of the human race. It tells a story of prophecy unparalleled, of development unapproached in the fullness of recorded time. It crowns with triumph the efforts of genius.

The World's Fair contained no finer statue of the great discoverer than this colossal figure. It commanded from its pedestal, the eastern entrance to the Administration building. The majesty of its dimensions, the vigor and aggressiveness of its expression and the artistic finish of its composition made it admired as a genuine sculptural triumph.

Another Standard Proudly Displayed

at the Fair was that of

Dr. Price's Cream Baking Powder

A Standard of Excellence for Forty Years.

It was the standard of unequalled strength, perfect purity and wholesome results. **The award to Dr Price's of highest honors at the Fair** furnishes conclusive evidence of its superiority over all other baking powders.

Unlike a certain much vaunted but antiquated "sanitary" sort of underwear, it is patterned after the human shape—*and fits.* No other (alleged) sanitary underwear is shaped so perfectly or fits so snug—in no other (alleged) sanitary underwear are the weights for each season so scientifically calculated, the seams so soft and unfeelable, the wool so good and clean and fine.

Kahn's sell it. No one else here may, and this is the protecting trade mark. NOTE IT WELL.

"OLD IRONSIDES."

History of Oliver Wendell Holmes' Stirring Lyric.

"Old Ironsides," O. Holmes' most stirring lyric and the one which brought him recognition as a poet, says the Boston *Post*, was first printed in the Boston *Advertiser*. In 1830, as all know, the frigate Constitution, the conquering hero of many a sea fight, lay at Charlestown navy yard, condemned by an unsentimental department to be destroyed as no longer seaworthy. Dr. Holmes was then a youth of 21. He had been graduated from Harvard the year before and had spent some time in the study of law. At that moment, however, his legal studies had been abandoned and he was living quietly at home, uncertain of his future occupation. It was in the interval between his desertion of the law and his resolve to study medicine that "Old Ironsides" was written. The young man's mind was filled with enthusiasm for the achievements of our navy, and that its most famous vessel should be chopped up like any unhallowed wood naturally provoked and galled him. The feelings which the action of the department aroused in him found spontaneous expression in the poem. We say spontaneous advisedly. There was nothing deliberate about its composition; it was wholly impromptu. To the best of his recollection, he says, he wrote it on a scrap of paper with a lead pencil while standing one day before the fireplace in the old house at Cambridge. And then, without dreaming the great popularity it would win, or how effectual its protest would be, he sent it off to the *Advertiser*, where it appeared in the issue of Thursday, September 16th. As it gave eloquent voice to the sentiment of the whole country its success was both sudden and universal. The poem was copied with applause from paper to paper, while in Washington it was struck off on handbills and distributed through the city. The grand result was preservation with honor for the Constitution.

ST. ELMO'S FIRE.

It Burns at the Masthead of an Atlantic Liner.

NEW YORK, November 7.—The Netherlands, an American Line steamer, from Amsterdam after a most tempestuous voyage arrived this morning. She was unable to call at Cologne for passengers owing to the heavy gale.

October 30th and 31st she experienced a cyclone, and strong gales were experienced up to November 5th, when the ship ran into another hurricane, lasting four hours.

The storm was accompanied by vivid lightning and heavy rain. St. Elmo's fire was seen at the mastheads for fully fifteen minutes. The vessel received no damage.

AMUSEMENTS.

The People's

The German Soldier was played to a good house last night at the People's Theater. Little Bobby Reiby's whirlwind dance is a strong feature of the evening, showing the great versatility of the child actor that he is. Manager Dunn's prompt and complete announcement of the election returns met with much approval by the audience. Tonight the accurate and full returns of the election will also be announced from the stage.

The German Soldier will be the bill for the entire week and Saturday matinee.

Miss Bell's Entertainment.

It is now known that Miss Bell will be greeted by a full house at the Unitarian Church tomorrow evening, and in grateful recognition of this compliment no pains will be spared to make the affair in all its appointments as chastely elegant as possible. The decorations and the young lady ushers will be especially attractive features.

The programme, embracing such notable artists as Mrs. Alfred Abbey, Hugo Mansfeldt, Constance Jordan and the University Glee Club, will be of marked interest and beauty of numbers and rendering.

BUZZARD'S BAY.

Clever Land and Mugwump Associates as Land Monopolists.

A Boston correspondent of the Philadelphia *Press* says: Grover Cleveland with some of his Mugwump associates has "cornered" the land market in Buzzard's Bay in a way suggesting a regular "communism of pelf."

"The Buzzard's Bay Company" is the title of the combination of capital which has bought up for small sums all the available land on Buzzard's Bay, and will sell it out for large amounts, and since it has secured a monopoly there it can put its foot upon "free competition, which is the life of honest trade," even in lands.

President Cleveland is the chairman of the Board of Trustees of this combination, and the other trustees are Moses Williams and William Minot Jr. of Boston. Mr. Williams is a Mugwump and a member of the Massachusetts Reform Club, and has as strong an antipathy to combinations of capital as has Mr. Cleveland. Some time ago the trustees sent out a circular giving the purpose and work of the company, but it has been for the most part called in. It was feared that it would injure the party to have it circulated too freely, but there are still several copies extant.

The circular states that the company has cornered all "that remains available" of the land in Buzzard's Bay, some 3000 acres, and comprising eighteen miles of water front.

Salt Water in Cement.

In the opinion of Dr. Michaelis of Berlin the greatest enemies to the permanency of the Portland cement used in marine structures are the sulphates contained in sea water. If there is any great quantity of alumina and ferric oxide in the cement the structure breaks up sooner than otherwise. This is accounted for by the fact that the sulphate forms, with the aluminate and ferrate of lime, a number of crystalline compounds, such as basic sulphate of lime, alumino-sulphate, and ferro-sulphate of lime. These compounds take up a large quantity of water of crystallization, so that the total volume is much increased. Hence the weakness and disintegration of the cement structure. Dr. Michaelis considers that the separation of hedrate of magnesia is quite innocuous, for it is only displaced from its solution in the form of a flocculent, slimy hydrate, which, if anything, is useful in stopping the pores. His general recommendation to users of concrete for marine work is to choose a cement rich in silicia and as poor as possible in alumina and ferric oxide and to envelope the structure with an impermeable mixture composed of one part of cement with two to two and one-half parts of sand of mixed grain, of which at least one-third should be very fine sand, and to this the requisite amount of ballast should be added.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the county of Alameda, State of California, and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this summons if served within this county otherwise within thirty days.

The said action is brought to obtain judgment against you in the sum of $75 1-100 gold coin, alleged to be due and owing from you to the plaintiff herein, for and on account of certain street assessments levied in the year 1892, upon certain lands and premises situate in the city of Alameda, Alameda county, State of California, and particularly described and set forth in the complaint filed in the action and to which you are specially referred for a description thereof, also interest on the sum now due on account such assessment from the 2d day of March 1892 at 10 per cent per annum and costs of suit and attorney's fees.

And that the land and premises so described in the complaint be held liable for the payment of the sum so assessed against the same and interest and costs and attorney's fee. And that the sum so assessed against the said land and premises and the interest due thereon, and the cost of this suit and attorney's fee, be adjudged to be a lien upon the said premises described in the complaint filed herein and that the said land and premises be sold by the Sheriff of Alameda county according to law, and that the proceeds of such sale be applied to the payment of the said plaintiff's claim, interest due thereon, costs of suit and attorney's fee aforesaid and such further relief in the premises as may be just and agreeable to equity.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to the Court for the relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the county of Alameda, State of California, this 8th day of October in the year of our Lord one thousand eight hundred and ninety four.

SAN FRANCISCO, November 7—*Bulletin*—At 9 o'clock this morning, partial returns had been received from 630 precincts in California including 290 precincts in San Francisco, out of a total of 2274 precincts in the State at large. These show a total vote of 102,043, and result for Governor as follows: Estee, 24 589, Budd, 31,001, Webster, 9150

JACKSON, Cal., November 7—Incomplete returns indicate election of T bbitts (Rep.) Assemblyman, and Voorhies Senator.

Caminetti is not running as well as last election. He will not get more than 250 majority in the county.

SEATTLE, Wash., November 7—About one-fourth of the vote of the entire State has been received. The Republicans will probably carry the State by about 15,000 and the Legislature will be Republican by a safe majority, insuring the election of a Republican Senator to fill the existing vacancy. Two Republican Congressmen will undoubtedly be elected. Returns received show the following result For Congressmen, Doolittle, Rep., 3723, Hyde, Rep, 8564, Houston, Dem., 2174, Caton, Dem, 2530, Adams, Pop., 4069, Van Patton, Pop, 4730.

SAN FRANCISCO, November 7—It is apparent that Grove L Johnson has defeated Congressman Caminetti in the second district.

Complete returns from ninety-five precincts give Johnson (Rep.) 4580, Caminetti (Dem) 3449, Cornell (Pop), 3212

SAN JOSE, Cal, November 7—Complete returns from forty-three precincts out of sixty-one in this county give the following result for Governor Budd, 2529, Estee, 2079, French, 534, Webster, 841.

NAPA, Cal, November 7—Estee's plurality in this county is 545, with three precincts yet to hear from and they will not materially change these figures. Barham has probably a plurality of 300 in county and Wade is elected Assemblyman.

ST. LOUIS, November 7.—Revised returns for St. Louis show the election of Cobb, Democrat, Joy, Republican, and Bartholdt, Republican.

There is no doubt that the Democratic State ticket is elected.

The Legislature is Democratic by forty majority.

NEW ORLEANS, November 7.—Returns from three sugar districts leave no doubt of the election of Democrats. Chairman Behren says there has been wholesale intimidation and fraud and the Republicans will contest. The Louisiana delegation of six will be solidly Democratic.

OMAHA, November 7.—Only one-third of the State has been heard from. Figures received indicate the election of Holcomb, Populist-Democrat for Governor, by a small plurality. Republicans have probably elected five or six Congressmen, with result in the Sixth district still in doubt. Outside of the Governor the Republican State ticket is elected and the Legislature will probably be Republican no joint ballot.

The present Republican strength in the Senate of 38 promises to be increased by Senators from New Jersey, Kansas, Montana, Washington and Wyoming, the last three being vacancies. The Republicans are likely to lose Nebraska. This makes a gain of 5, and loss of 1, or net gain of 4, raising the Republican total to 42.

Populists now have three Senators. Returns indicate gains for them in South Carolina and Nebraska, making their total five. Senators Jones and Stewart of Nevada have of late affiliated with the Populists, so Populist strength may be increased, and Republicans be decreased by two. THE COAST.

SAN FRANCISCO, November 7.—The count of votes in California is proceeding in the slowest manner ever known here, and at noon today there is absolutely no means of knowing anything more about the general result than was known late last night. Little or nothing has been received from the large counties like Alameda and Los Angeles. The situation has not changed since 3 o'clock this morning when, from the returns at hand, the election of Budd (Dem.) for Governor seemed certain, as did also the election of five Republican Congressmen. The result in the First district is in doubt, with Barham, Rep., leading. Maguire, Dem., is re-elected in the Fourth district. Absolutely nothing definite is known about the Legislature, and it will probably be late tonight before any definite figures can be received.

SAN FRANCISCO, November 7.—Seventy-three complete precincts in the First Congressional district give Barham, Rep., 3599; Geary, Dem., 3219; Grigsby, Pop., 1421.

VENTURA, Cal., November 7.—The election in this county passed off quietly, but was most hotly contested. The greatest interest centered on the county ticket.

There was a full vote polled. Owing to the blanket ballot and difficulty in counting, the returns are coming in slowly, but eight out of twenty-two precincts having completed their count at this hour. Those that have come in show that the Republicans have gained considerably over the vote of 1892, and that the Democrats have lost, while the People's Party have barely held their own.

The chairman of the Republican County Committee claims the county for Estee by 400, while the Democrats concede 275.

McLachlan for Congress is running just about even with the head of the ticket. Bennett (Rep.) for the Assembly is elected.

Ogden and Ellsworth Will Be the Judges.

Schaffer Is Now Leading in the Race for Sheriff.

H. P. Dalton so Far Running Ahead in the Contest for Assessor.

The count is progressing slowly throughout the county. It is far from complete, but it has progressed far enough to enable us to forecast pretty accurately the positive result in some cases and the probable result in others. Complete returns have been received from thirty-two precincts, seventeen of which are in the city. These show the following results:

Estee has fallen behind his ticket and Budd has run ahead of his. Consequently, the majority of Estee over Budd is small.

L. H. Brown is running strong for Secretary of State, having nearly two votes to Maddox's one.

Radcliffe for State Treasurer is running equally well ahead of Castro, Dem.

The same may be said of Ward, Rep., against McGlade, Dem., for Clerk of the Supreme Court.

For Associate Justices of the Supreme Court Henshaw has received three votes to Murphy one, and Temple has a good majority over Torrence, while Van Fleet is well ahead of Bridgford.

Morehouse is running behind Wells for the Board of Equalization.

Hilborn has a fair majority over English, but the latter is running ahead of his ticket.

Judges Ellsworth and Ogden will beyond doubt succeed themselves on the Superior Bench.

The contest between Schaffer and White for Sheriff is very close, but at 2 P. M. Schaffer was slightly in the lead.

Charles H. Spear will be the next Recorder.

Frank Jordan is in the lead for County Clerk, but Rosborough is pressing him closely.

James C. Barber is sure of the Tax Collectorship.

Myron A. Whidden is also a sure winner.

Next to the Shrievalty the District Attorneyship is the hottest fight in the list. Snook, Rep., and Garrity, Dem., are running neck and neck.

W. H. Knight has an ample majority for Public Administrator.

J. P. Garlick is running ahead of all competitors for the office of Superintendent of Schools, with Frick a close second.

Dalton's majority for Assessor cannot be overcome.

J. W. Laymance is gaining ground in the contest for the Treasurership.

Dr. Baldwin is in the lead for Coroner.

Nusbaumer has the Surveyorship fight well in hand.

Eli Denison and Bullock are having a close race in the Twenty-sixth Senatorial district, the former being slightly ahead.

O'Neill (Dem.) is now leading Beard (Rep.) in the Twenty-eighth Senatorial district.

Mendenhall is giving Fassett a hard race in the Forty-sixth Assembly district.

Waymire has undoubtedly been elected in the Forty-seventh Assembly district.

It looks Gay in the Forty-eighth Assembly district.

In the Forty-ninth Assembly district McDonald (Dem.) is at present leading Collins (Rep.).

North will represent the Fiftieth Assembly district.

Dodge has a good majority in the Fifty-first.

In the Second Supervisorial district Brown (Dem.) is leading Talcott.

Church is ahead for the Supervisorship in the Third district.

Allen and Wood will, without doubt, be the next City Justices of the Peace, and Justice Clift has been elected by a good majority as Township Justice.

Babcock also has a dispatch stating that Denny, Republican, in Seventh Kentucky District is elected by 225. This is Ashland district, formerly represented by Breckinridge. A dispatch from the chairman, Holman, South Carolina State Committee and Congressman Settle says: "We have carried the State if we can hold it."

Senator Faulkner, the chairman of the Democratic Congressional Committee, concedes the House to the Republicans by 65 to 70 plurality.

The Senate will not be Republican, he says, unless the party carries Tennessee, which is still uncertain, or unless Senator Pfeffer votes with the Republicans.

NEW YORK, November 7.—The result of the elections was reflected in the strong market at the Stock Exchange, nearly all shares showing a material advance for opening transactions, except Manhattan, which broke 2½ on purely local issues. Sugar was advanced 2⅛; subsequently on realization sales it broke 2.

NEW YORK, November 7. — Bartlett (Dem.) is elected to Congress from the Seventh district, instead of Ford (Rep.), as previously reported.

The complexion of the Congressional delegation from New York State, according to nearly complete returns, is 30 Republicans, 4 Democrats. The Republican gain is 15.

OGDEN, Utah, November 7.—*Bulletin*—The third edition of the Salt Lake *Tribune* estimates Cannon's (Rep.), for Congress, majority at nearly 2000. Salt Lake county—Cannon, 5609; Rawlins, 4397, and every Republican in the county elected.

WILMINGTON, November 7.—Delaware complete gives the Republicans a majority of 1200. Republicans elect Governor and Congressman. The Legislature will stand, 18 Republicans, 12 Democrats. This insures a Republican successor to Senator Higgins.

SUMMARY.

New York State—Morton, Governor by 150,000. The Legislature is Republican on joint ballot.

Colorado—The Republican State ticket is elected by a majority of 18,000.

Connecticut—The Republicans have carried the State by a good majority.

Delaware has probably gone Democratic by a narrow margin.

Iowa has gone Republican by a large majority.

Michigan—The Republicans carry the State and Congress.

Massachusetts — The Republicans sweep the State by 50,000 majority.

Illinois—The Republicans have carried the State by a large majority.

Nebraska—The result is uncertain. The returns as far as heard from indicate Republican gains.

The South stands solid as usual.

Washington State—Probably Republican.

Nevada—Result for Governor in doubt. Newlands (silver) for Congress, probably elected.

Minnesota—Republicans elected Governor by large majority.

New Jersey—Republicans have a majority in the Legislature on a joint ballot and will elect a United States Senator to succeed the Democratic Senator. Congressional delegation, probably, Republican, 5; Democrats, 3.

North Dakota—Doubtful. Democrats probably elect Governor.

Ohio—Republicans carry the State by a large plurality.

South Dakota — Republicans elect the State and Congressional ticket by 12,000 plurality.

West Virginia goes Republican. W. L. Wilson is defeated for Congress.

Kansas—Result in doubt; Republicans probably elect State ticket.

Wisconsin elects State ticket and eight out of ten Congressmen.

Indiana Republicans make a clean sweep; majority 40,000.

Maryland Republicans elect two Congressmen, possibly four.

New Hampshire Republicans elect Governor and Congressman.

Pennsylvania—The Republicans elect State ticket, also Republican Congressman in Randall's old district.

DES MOINES, Ia.—Des Moines leading Democrats says Republicans carried the State 50,000 plurality. Populists may elect Claggett and Shea. Hayes alone is saved. Weaver badly left. Register, Rep., says Iowa is Republican by the largest plurality ever given. Ten Republican Congressmen elected, probably making it unanimous.

CHICAGO.—Returns gathered by the Associated Press indicate a plurality of 100,000 on the State ticket, and 35000 in Cook county. Six out of seven Republican Congressmen in Cook county with the probability of the seventh.

INDIANAPOLIS.—From latest returns, the Republican majority on the State ticket will be between 35000 and 40000.

Republicans will elect Congressmen in First, Second, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh, Twelfth, and Thirteenth Districts.

Third district doubtful by both parties.

Fourth district close.

THE COAST.

SAN FRANCISCO, November 7.—The count of votes in California is proceeding in the slowest manner ever known here, and at noon today there is absolutely no means of knowing anything more about the general result than was known late last night. Little or nothing has been received from the large counties like Alameda and Los Angeles. The situation has not changed since 3 o'clock this morning when, from the returns at hand, the election of Budd (Dem.) for Governor seemed certain, as did also the election of five Republican Congressmen. The result in the First district is in doubt, with Barham, Rep., leading. Maguire, Dem., is re-elected in the Fourth district. Absolutely nothing definite is known about the Legislature, and it will probably be late tonight before any definite figures can be received.

SAN FRANCISCO, November 7.—Seventy-three complete precincts in the First Congressional district give Barham, Rep., 3599; Geary, Dem., 3219; Grigsby, Pop., 1421.

VENTURA, Cal., November 7.—The election in this county passed off quietly, but was most hotly contested. The greatest interest centered on the county ticket.

There was a full vote polled. Owing to the blanket ballot and difficulty in counting, the returns are coming in slowly, but eight out of twenty-two precincts having completed their count at this hour. Those that have come in show that the Republicans have gained considerably over the vote of 1892, and that the Democrats have lost, while the People's Party have barely held their own.

The chairman of the Republican County Committee claims the county for Estee by 400, while the Democrats concede 275.

McLachlan for Congress is running just about even with the head of the ticket. Bennett (Rep.) for the Assembly is elected.

On the county ticket the Democrats

How the Vote Is Going in This County.

Ogden and Ellsworth Will Be the Judges.

Schaffer Is Now Leading in the Race for Sheriff.

H. P. Dalton so Far Running Ahead in the Contest for Assessor.

The count is progressing slowly throughout the county. It is far from complete, but it has progressed far enough to enable us to forecast pretty accurately the positive result in some cases and the probable result in others. Complete returns have been received from thirty-two precincts, seventeen of which are in the city. These show the following results:

Estee has fallen behind his ticket and Budd has run ahead of his. Consequently, the majority of Estee over Budd is small.

L. H. Brown is running strong for Secretary of State, having nearly two votes to Maddox's one.

Radcliffe for State Treasurer is running equally well ahead of Castro, Dem.

The same may be said of Ward, Rep., against McGlade, Dem., for Clerk of the Supreme Court.

For Associate Justices of the Supreme Court Henshaw has received three votes to Murphy one, and Temple has a good majority over Torrence, while Van Fleet is well ahead of Bridgford.

Morehouse is running behind Wells for the Board of Equalization.

Hilborn has a fair majority over English, but the latter is running ahead of his ticket.

Judges Ellsworth and Ogden will beyond doubt succeed themselves on the Superior Bench.

The contest between Schaffer and White for Sheriff is very close, but at 2 P. M. Schaffer was slightly in the lead.

Charles H. Spear will be the next Recorder.

Frank Jordan is in the lead for County Clerk, but Rosborough is pressing him closely.

James C. Barber is sure of the Tax Collectorship.

Myron A. Whidden is also a sure winner.

Next to the Shrievalty the District Attorneyship is the hottest fight in the list. Snook, Rep., and Garrity, Dem., are running neck and neck.

W. H. Knight has an ample majority for Public Administrator.

J. P. Garlick is running ahead of all competitors for the office of Superintendent of Schools, with Frick a close second.

Dalton's majority for Assessor cannot be overcome.

J. W. Laymance is gaining ground in the contest for the Treasurership.

Dr. Baldwin is in the lead for Coroner.

Nusbaumer has the Surveyorship fight well in hand.

Eli Denison and Bullock are having a close race in the Twenty-sixth Senatorial district, the former being slightly ahead.

O'Neill (Dem.) is now leading Beard (Rep.) in the Twenty-eighth Senatorial district.

Mendenhall is giving Fassett a hard race in the Forty-sixth Assembly district.

Waymire has undoubtedly been elected in the Forty-seventh Assembly district.

It looks Gay in the Forty-eighth Assembly district.

In the Forty-ninth Assembly district McDonald (Dem.) is at present leading Collins (Rep.).

Hilborn will represent the Fiftieth Assembly district.

Dodge has a good majority in the Fifty-first.

In the Second Supervisorial district Brown (Dem.) is leading Talcott.

Church is ahead for the Supervisorship in the Third district.

Allen and Wood will, without doubt, be the next City Justices of the Peace, and Justice Clift has been elected by a good majority as Township Justice.

THE "GOOSE AND GRIDIRON."

Where Free Masonry Was Revived in London.

Trade, that great "improver" of the metropolis, is about to swallow up another of those old landmarks so dear to antiquaries, so interesting even to the general public which runs and reads. Ere long the "Goose and Gridiron" will probably disappear down the capacious maw, so to speak, of a well known firm in St. Paul's Churchyard, for whose premises the site of the old hostelry is, or will be, wanted.

There is nothing remarkable now about the outside of the old house. Its present exterior is of the usual sedate and uninteresting style of the latter part of the last century, and an escutcheon, bearing the date 1786, surmounted by a mitre and the letters "T. F.," undoubtedly marks the period of the present front. Not long ago, however, there was also to be seen over the large lamp which hung over the door one of the most curious of inn signs of London, the sign of the house, the "Goose and Gridiron."

This old hostelry is historically connected with the Free Masons, for in it in 1717 Masonry was revived, and the very first grand lodge of the world founded. Of the taverns in which the four lodges then in England worked—the pioneers of English Free Masonry—the "Goose and Gridiron" is the last, and soon it also will disappear.

Before the great fire of 1666 there was a house here, perhaps on this very site, which bore the sign of the Mitre. This Mitre was the first music-house in London. According to the *Tatler*, when the house ceased to be a music-house the succeeding landlord, to ridicule its former destiny, chose for his sign a goose striking the bars of a gridiron with its foot, thus making fun of the swan and harp, which was a common sign of the early music-houses.

THE "GOOSE AND GRIDIRON."

Where Free Masonry Was Revived in London.

Trade, that great "improver" of the metropolis, is about to swallow up another of those old landmarks so dear to antiquaries, so interesting even to the general public which runs and reads. Ere long the "Goose and Gridiron" will probably disappear down the capacious maw, so to speak, of a well known firm in St. Paul's Churchyard, for whose premises the site of the old hostelry is, or will be, wanted.

There is nothing remarkable now about the outside of the old house. Its present exterior is of the usual sedate and uninteresting style of the latter part of the last century, and an escutcheon, bearing the date 1786, surmounted by a mitre and the letters "T. F.," undoubtedly marks the period of the present front. Not long ago, however, there was also to be seen over the large lamp which hung over the door one of the most curious of inn signs of London, the sign of the house, the "Goose and Gridiron."

This old hostelry is historically connected with the Free Masons, for in it in 1717 Masonry was revived, and the very first grand lodge of the world founded. Of the taverns in which the four lodges then in England worked—the pioneers of English Free Masonry—the "Goose and Gridiron" is the last, and soon it also will disappear.

Before the great fire of 1666 there was a house here, perhaps on this very site, which bore the sign of the Mitre. This Mitre was the first music-house in London. According to the *Tatler*, when the house ceased to be a music-house the succeeding landlord, to ridicule its former destiny, chose for his sign a goose striking the bars of a gridiron with its foot, thus making fun of the swan and harp, which was a common sign of the early music-houses.

WEDNESDAY.....NOVEMBER 7, 1894

NOW THAT the election is out of the way, let the town be cleansed of vagrants, and if there is no other way to do it a revival of the chain gang is in order.

THE curious vote which Altamont cast in the Congressional election of 1892 has been reversed. The record made yesterday was: English, 52; Hilborn, 19. It was the other way two years ago.

"The Tribune" in the Campaign.

The election is now over and the choice of the people has been declared at the polls. All that remains now is to determine by the count what the choice has been. THE TRIBUNE takes some pride in reviewing its own course in the campaign. Its columns have been absolutely free from personalities. It has indulged in no mud-slinging. It has appealed to the intelligence of citizens rather than to their passions or their prejudices. It has assumed, and we believe that the assumption is warranted by the facts, that the average reader of a newspaper is a rational thinking being who is quickly surfeited by personal abuse and who loses all respect for the paper that is a vehicle of irrelevant personalities and defamation; that his mind is open to conviction and may be influenced by a fair statement of fact and a reasonable argument based upon it.

THE TRIBUNE has conducted the campaign on these lines. No matter what the result of the election is, THE TRIBUNE can look back over its course during the campaign without remorse or regret for what it has said and done. It can look in the face of the men whom it has opposed in the campaign without fear of reproach. It opposed their election on strictly political grounds; but its opposition was expressed in a way that must have been unobjectionable to even the intensest partisan. In fact, THE TRIBUNE has demonstrated that a campaign can be conducted on a clean and elevated plane, wherein the voter is educated, and politics is in a large measure dragged out of the filthy pool in which it is, unfortunately, too often submerged by most newspapers.

The "Trent" Affair Repeated.

History has repeated itself in a recurrence of the Trent affair in Oriental waters, the offender being China, and England is again the one offended against. The offense consisted of the boarding of a neutral British steamship—the Chung King—and forcibly removing therefrom a number of Japanese soldiers. England has imperatively demanded the return of the prisoners to the ship, the dismissal and degradation of the offending mandarin and the saluting of the flag of the boarded ship with twenty-one guns. Seven days' grace has been given the Chinese Government to comply with the demand. That part of the ultimatum relating to the return of the men seized has already been complied with. China will, no doubt, comply with the rest without delay. If she does not, reprisals will follow, and the British fleet is strong enough in Chinese waters to make it very uncomfortable for the Flowery Kingdom at the present time.

The incident resembles the Trent affair in so far as it was an invasion of a ship bearing the British flag and a breach of the right of asylum. The Chung King was moored, however, to the dock in a Chinese port at the time of the raid by the Chinese soldiers and the seizure of the Japanese passengers. The royal mail steamship Trent was, on the other hand, overhauled by the United States warship San Jacinto, on the high seas, and the Confederate commissioners to France and England, Slidell and Mason, were forcibly transferred by Captain Wilkes there and then to his ship, under threats of turning his guns loose on the Trent. Although the Chung King was in Chinese waters and moored to a Chinese dock, and although the passengers seized on her deck were soldiers in the service of a country with which China is at war, still England has asserted the neutrality of the property over which her flag flies and the sacred right of asylum. China is in no better condition to deny the claim of the right of asylum than the United States was in the case of the seizure of Slidell and Mason, for she has a foreign war on hand which is draining all her resources, as the United States had a rebellion to deal with which then taxed all her resources to the utmost.

A Political Revolution.

The results of yesterday's elections throughout the country are manifesting themselves very clearly today. They record a great Republican victory. They show that a complete revolution has taken place in the public mind regarding national issues. The note which Maine, Vermont and Connecticut struck some weeks ago was a true one, and as a result the next House of Representatives at the National capital promises to be as overwhelmingly Republican as it has been overwhelmingly Democratic during the past two years. The banners of the Republican party have this year penetrated far into the Southern States, and Congressional districts which have been hitherto Democratic to the core have elected Republican Representatives. New York city and State, the very citadel of Democracy in the North, has been handed over to the Republicans by an overwhelming majority. David B. Hill has been buried under a plurality of at least 100,000 votes. Ex-Mayor Grant and Tammany Hall have been downed. The evidence drawn out by the Lexow Senatorial Commission of the corruption which Tammany Hall fostered in the metropolis, and by means of which it drew its enormous revenues, was so convincing that the public conscience revolted against its toleration any longer, and the Augean stables have been swept by a new broom.

Illinois has passed over into the Republican column also, notwithstanding Vice President Stevenson's personal efforts to keep it in the Democratic line. Free trade tariff reform has had its brief day. The evils which it has been responsible for have, however, been intolerable to a patient and suffering people, and they have risen in their might in revolt against it. The standard of Wilson of West Virginia, the father of the House Tariff Reform bill, has been lowered with a lot of his warmest supporters of tariff reform on a free trade basis. The meaning of such a popular political revolution is unmistakeable. The country does not approve the kind of tariff reform a Democratic Administration has provided it with, and it will have no more of it. Never has a national administration received a severer rebuke.

The count in this State is so far from complete that it cannot yet be stated with absolute certainty how it stands. So far as the head of the ticket is concerned, it does not seem to have joined the Republican procession. The indications are that Budd has been elected Governor, although the rest of the Democratic ticket has been probably defeated. Estee has been running behind his ticket almost everywhere—that is, taking the vote on Millard, the Republican nominee for Lieutenant Governor as a guide, and Budd has kept ahead of his ticket. Evidently the Democracy traded everything in sight for Budd. The vote for Webster, the Populist nominee, has been comparatively light.

When we come to a review of the contest on the county ticket, the evidences of independent voting are plain on all sides. Party lines have been broken down on almost every hand, and it will take a complete count to determine how many of the candidates for some of the more important offices stand.

LORD DUNRAVEN, the owner of the Valkyrie, the last contestant from across the Atlantic for the America cup, intends challenging for that trophy again. Dunraven is plucky, and there is nothing so admirable in a yachtsman as pluck. He proposes to build a yacht on the extreme water line limit provided in the conditions regulating the cup races, namely, ninety feet in length on the water line. But he proposes, if report be true, to make the selection of a new course as the conditions of the challenge. When Dunraven was over here last year with the Valkyrie, he gave careful study to the subject of sailing courses. He favors Marblehead as the best and most convenient course on the Atlantic coast for the contest, and the Boston *Traveller* endorses the choice. The Sandy Hook course is objectionable for many reasons, but New York will undoubtedly use all its influence to keep the America cup races there nevertheless, because they bring an immense amount of money into the metropolis from all parts of the country and from abroad. Watson, who designed the Valkyrie, is to design the new challenger and she is to built on the Clyde.

THE sale of the controlling interest in the Chicago *Tribune* is said to have been consummated, Joseph Medill being the seller and Melville E. Stone and H. H. Kohlsaat, formerly of the *Inter Ocean*, being the purchasers. It is said that Stone, who is now general manager of the Associated Press, will be the new editor of the *Tribune*. Medill will spend the rest of his days at Los Angeles.

THE late trot between Alix and Directum, in which the latter was withdrawn after the second heat, is now openly charged by the New York newspapers with having been a hippodrome, gotten up by Hickok, Crawford & Co. for the sake of the gate money. Directum was in no condition for a test of speed, but he was an attraction to the gullible public nevertheless, and the hippodromists reaped a harvest.

NOTES FOR WOMEN.

Text of a singular *menu* composed and written by the kitchenmaid in a Scotch country house when the cook was ill and the girl thought it incumbent upon her to fulfill a cook's duties;

First a little soup,
Then a little fish,
After that a bunny
On a silver dish.
A grouse,
A dish of many colors.
Some cheese.
Dessert.
That's all!

Warm water, sea bathing, temperance and outdoor life are curatives for bleariness of the eyes. In blear eye—"lippitudo"—there is an exudation of purulent matter from the margins of the evelids, which are red, humid and somewhat painful, and frequently during the night are glued together by the discharge. Clean water of medium warmth is the best application. Excess in eating and drinking should likewise be avoided and some aperient medicine taken.

If you have the appearance of a felon coming put some hardwood ashes in an old tin cup, pour over them warm water, immerse the end of the sore finger in the ashes, set the dish on some live coals or on top of the stove, keeping the finger in as long as you can, and soak it several times a day. If taken in time it generally prevents a felon from coming if the finger is wet with it often.

Black ostrich boas will be more in favor than ever for the demi-saison.

Large silver bracelets are worn. They have a linked roped effect, but are not weighty. The union of polished and dull metals is decidedly valuable in these.

The first step toward the revival of the bustle has been taken. This is shown in the new organ-pipe skirt. It is the skirt of the season and resembles in a marked degree the bustle of the past. The skirt is very full, lined with haircloth, and arranged in four or two box plaits at the back. These plaits stand out prominently and are padded ten inches from the waist line. Over the hips the skirt fits with glove-like smoothness, flaring toward the bottom.

Baroness Adolphe de Rothschild keeps a farm at Boulogne-sur-Seine, just outside the Bois, and here during hot afternoons it is her delight to initiate the votaries of fashion into the simple pleasure of rustic life. The guests are welcomed in a Louis XV drawing room, where the furniture is covered with satin brocade of the palest bluish pink hue, and all the knick-knacks and engravings are suggestive of the ancient regime. One of the walls consists of a huge sheet of plate glass, giving views into the cow shed, within which a double row of "milky mothers" browse at their marble mangers. A Breton herdsman and his wife in national costume tend the sleek cattle and make the picture complete.

BITS OF GOSSIP.

Miss Mary McCulloch, daughter of Hugh McCulloch, the famous financier and ex-Secretary of the United States Treasury, has started on a tour round the world. She is accompanied by her cousin, Professor Hugh McCulloch of Harvard University, and will be gone a year or more.

General Booth has a large amount of just pride in the *War Cry*, which has a circulation of a million copies a week and is printed in forty different languages.

The Unsolved Problem.

He had spent long years in college and acquired all kinds of knowledge,
From smoking cigarettes to reading Greek;
And it was said by many that in Hebrew, Esquimo and Latin
With the accent of a native he could speak.

He knew every modern science, and for every new appliance
He was able some improvement to suggest;
And from banding on a hawser up to criticising Chaucer,
Of all the greatest minds he was abreast.

He was charmed with hydrostatics, and in higher mathematics
Not a thing to stump him could he find;
And to prove a line's direction or bisect a conic section
Was but a relaxation to his mind.

But he saw a little maiden after all this store he laid in,
The most inviting problem he had met;
And he felt it was his mission to employ his erudition
To solve this most inviting problem yet.

So without a bit of shirking he has ever since been working
On the question with an ardor that never tires;
Yet with all his application, to his deep and great vexation,
He cannot get the answer he desires.

NOW THAT the election is out of the way, let the town be cleansed of vagrants, and if there is no other way to do it a revival of the chain gang is in order.

THE curious vote which Altamont cast in the Congressional election of 1892 has been reversed. The record made yesterday was: English, 52; Hilborn, 19. It was the other way two years ago.

"The Tribune" in the Campaign.

The election is now over and the choice of the people has been declared at the polls. All that remains now is to determine by the count what the choice has been. THE TRIBUNE takes some pride in reviewing its own course in the campaign. Its columns have been absolutely free from personalities. It has indulged in no mud-slinging. It has assumed, and we believe that the assumption is warranted by the facts, that the average reader of a newspaper is a rational thinking being who is quickly surfeited by personal abuse and who loses all respect for the paper that is a vehicle of irrelevant personalities and defamation; that his mind is open to conviction and may be influenced by a fair statement of fact and a reasonable argument based upon it.

THE TRIBUNE has conducted the campaign on these lines. No matter what the result of the election is, THE TRIBUNE can look back over its course during the campaign without remorse or regret for what it has said and done. It can look in the face of the men whom it has opposed in the campaign without fear of reproach. It opposed their election on strictly political grounds; but its opposition was expressed in a way that must have been unobjectionable to even the intensest partisan. In fact, THE TRIBUNE has demonstrated that a campaign can be conducted on a clean and elevated plane, wherein the voter is educated, and politics is in a large measure dragged out of the filthy pool in which it is, unfortunately, too often submerged by most newspapers.

The "Trent" Affair Repeated.

History has repeated itself in a recurrence of the Trent affair in Oriental waters, the offender being China, and England is again the one offended against. The offense consisted of the boarding of a neutral British steamship—the Chung King—and forcibly removing therefrom a number of Japanese soldiers. England has imperatively demanded the return of the prisoners to the ship, the dismissal and degradation of the offending mandarin and the saluting of the flag of the boarded ship with twenty-one guns. Seven days' grace has been given the Chinese Government to comply with the demand. That part of the ultimatum relating to the return of the men seized has already been complied with. China will, no doubt, comply with the rest without delay. If she does not, reprisals will follow, and the British fleet is strong enough in Chinese waters to make it very uncomfortable for the Flowery Kingdom at the present time.

The incident resembles the Trent affair in so far as it was an invasion of a ship bearing the British flag and a breach of the right of asylum. The Chung King was moored, however, to the dock in a Chinese port at the time of the raid by the Chinese soldiers and the seizure of the Japanese passengers. The royal mail steamship Trent was, on the other hand, overhauled by the United States warship San Jacinto, on the high seas, and the Confederate commissioners to France and England, Slidell and Mason, were forcibly transferred by Captain Wilkes there and then to his ship, under threats of turning his guns loose on the Trent. Although the Chung King was in Chinese waters and moored to a Chinese dock, and although the passengers seized on her deck were soldiers in the service of a country with which China is at war, still England has asserted the neutrality of the property over which her flag flies and the sacred right of asylum. China is in no better condition to deny the claim of the right of asylum than the United States was in the case of the seizure of Slidell and Mason, for she has a foreign war on hand which is draining all her resources, as the United States had a rebellion to deal with which then taxed all her resources to the utmost.

A Political Revolution.

The results of yesterday's elections throughout the country are manifesting themselves very clearly today. They record a great Republican victory. They show that a complete revolution has taken place in the public mind regarding national issues. The note which Maine, Vermont and Connecticut struck some weeks ago was a true one, and as a result the next House of Representatives at the National capital promises to be as overwhelmingly Republican as it has been overwhelmingly Democratic during the past two years. The banners of the Republican party have this year penetrated far into the Southern States, and Congressional districts which have been hitherto Democratic to the core have elected Republican Representatives. New York city and State, the very citadel of Democracy in the North, has been handed over to the Republicans by an overwhelming majority. David B. Hill has been buried under a plurality of at least 100,000 votes. Ex-Mayor Grant and Tammany Hall have been downed. The evidence drawn out by the Lexow Senatorial Commission of the corruption which Tammany Hall fostered in the metropolis, and by means of which it drew its enormous revenues, was so convincing that the public conscience revolted against its toleration any longer, and the Augean stables have been swept by a new broom.

Illinois has passed over into the Republican column also, notwithstanding Vice President Stevenson's personal efforts to keep it in the Democratic line. Free trade tariff reform has had its brief day. The evils which it has been responsible for have, however, been intolerable to a patient and suffering people, and they have risen in their might in revolt against it. The standard of Wilson of West Virginia, the father of the House Tariff Reform bill, has been lowered with a lot of his warmest supporters of tariff reform on a free trade basis. The meaning of such a popular political revolution is unmistakeable. The country does not approve the kind of tariff reform a Democratic Administration has provided it with, and it will have no more of it. Never has a national administration received a severer rebuke.

The count in this State is so far from complete that it cannot yet be stated with absolute certainty how it stands. So far as the head of the ticket is concerned, it does not seem to have joined the Republican procession. The indications are that Budd has been elected Governor, although the rest of the Democratic ticket has been probably defeated. Estee has been running behind his ticket almost everywhere—that is, taking the vote on Millard, the Republican nominee for Lieutenant Governor as a guide, and Budd has kept ahead of his ticket. Evidently the Democracy traded everything in sight for Budd. The vote for Webster, the Populist nominee, has been comparatively light.

When we come to a review of the contest on the county ticket, the evidences of independent voting are plain on all sides. Party lines have been broken down on almost every hand, and it will take a complete count to determine how many of the candidates for some of the more important offices stand.

LORD DUNRAVEN, the owner of the Valkyrie, the last contestant from across the Atlantic for the America cup, intends challenging for that trophy again. Dunraven is plucky, and there is nothing so admirable in a yachtsman as pluck. He proposes to build a yacht on the extreme water line limit provided in the conditions regulating the cup races, namely, ninety feet in length on the water line. But he proposes, if report be true, to make the selection of a new course as the conditions of the challenge. When Dunraven was over here last year with the Valkyrie, he gave careful study to the subject of sailing courses. He favors Marblehead as the best and most convenient course on the Atlantic coast for the contest, and the Boston *Traveller* endorses the choice. The Sandy Hook course is objectionable for many reasons, but New York will undoubtedly use all its influence to keep the America cup races there nevertheless, because they bring an immense amount of money into the metropolis from all parts of the country and from abroad. Watson, who designed the Valkyrie, is to design the new challenger and she is to built on the Clyde.

THE sale of the controlling interest in the Chicago *Tribune* is said to have been consummated, Joseph Medill being the seller and Melville E. Stone and H. H. Kohlsaat, formerly of the *Inter Ocean*, being the purchasers. It is said that Stone, who is now general manager of the Associated Press, will be the new editor of the *Tribune*. Medill will spend the rest of his days at Los Angeles.

THE late trot between Alix and Directum, in which the latter was withdrawn after the second heat, is now openly charged by the New York newspapers with having been a hippodrome, gotten up by Hickok, Crawford & Co. for the sake of the gate money. Directum was in no condition for a test of speed, but he was an attraction to the gullible public nevertheless, and the hippodromists reaped a harvest.

NOTES FOR WOMEN.

Text of a singular *menu* composed and written by the kitchenmaid in a Scotch country house when the cook was ill and the girl thought it incumbent upon her to fulfill a cook's duties;

First a little soup,
Then a little fish,
After that a bunny
On a silver dish.
A grouse,
A dish of many colors.
Some cheese,
Dessert
That's all!
—*New York Herald.*

Warm water, sea bathing, temperance and outdoor life are curative for bleariness of the eyes. In blear eye—"lippitudo"—there is an exudation of purulent matter from the margins of the eyelids, which are red, humid and somewhat painful, and frequently during the night are glued together by the discharge. Clean water of medium warmth is the best application. Excess in eating and drinking should likewise be avoided and some aperient medicine taken.

If you have the appearance of a felon coming put some hardwood ashes in an old tin cup, pour over them warm water, immerse the end of the sore finger in the ashes, set the dish on some live coals or on top of the stove, keeping the finger in as long as you can, and soak it several times a day. If taken in time it generally prevents a felon from coming if the finger is wet with it often.

Black ostrich boas will be more in favor than ever for the demi-saison.

Large silver bracelets are worn. They have a linked roped effect, but are not weighty. The union of polished and dull metals is decidedly valuable in these.

The first step toward the revival of the bustle has been taken. This is shown in the new organ-pipe skirt. It is the skirt of the season and resembles in a marked degree the bustle of the past. The skirt is very full, lined with haircloth, and arranged in four or two box plaits at the back. These plaits stand out prominently and are padded ten inches from the waist line. Over the hips the skirt fits with glove-like smoothness, flaring toward the bottom.

Baroness Adolphe de Rothschild keeps a farm at Boulogne-sur-Seine, just outside the Bois, and here during hot afternoons it is her delight to initiate the votaries of fashion into the simple pleasure of rustic life. The guests are welcomed in a Louis XV drawing room, where the furniture is covered with satin brocade of the palest bluish pink hue, and all the knick-knacks and engravings are suggestive of the ancient regime. One of the walls consists of a huge sheet of plate glass, giving views into the cow shed, within which a double row of "milky mothers" browse at their marble mangers. A Breton herdsman and his wife in national costume tend the sleek cattle and make the picture complete.

BITS OF GOSSIP.

Miss Mary McCulloch, daughter of Hugh McCulloch, the famous financier and ex-Secretary of the United States Treasury, has started on a tour round the world. She is accompanied by her cousin, Professor Hugh McCulloch of Harvard University, and will be gone a year or more.

When a musical idea takes possession of Johann Strauss he immediately jots it down—on his cuffs, if paper is not handy. He makes many alterations, and when finally he tries it on the piano he does it with great care lest somebody may hear and steal the melody.

Professor Leyden of Berlin was handed a $5000 fee on making his first visit to the Czar.

In recognition of his skill as a sculptor and as a token of appreciation of numerous statues made by him, Giovanni Turini of Stapleton, L. I., has been presented with a handsome gold medal by the President of Venezuela.

Mme. Regnon of Roostoen, Holland, is no slouch as a florist, seeing that during the past summer she had a giant rosebush in full growth and weighted down with 6000 roses in full bloom.

Mary Elizabeth Kyel, who is now 104 years old, has lived in London all her life, and is proud of being able to say that she has slept under one roof for 20,000 nights.

Rev. C. H. Spurgeon left a team load of sermons on hand when he died, and there are yet as many unpublished as would take ten years time to get out.

General Booth has a large amount of just pride in the *War Cry*, which has a circulation of a million copies a week and is printed in forty different languages.

The Unsolved Problem.

He had spent long years in college and acquired all kinds of knowledge,
From smoking cigarettes to reading Greek;
And it was said by many that in Hebrew, Eskimo and Latin
With the accent of a native he could speak.

He knew every modern science, and for every new appliance
He was able some improvement to suggest;
And from bending on a hawser up to criticising Chaucer,
Of all the greatest minds he was abreast.

He was charmed with hydrostatics, and in higher mathematics
Not a thing to stump him could he find;
And to prove a line's direction or bisect a conic section
Was but a relaxation to his mind.

But he saw a little maiden after all this store he laid in,
The most inviting problem he had met;
And he felt it was his mission to employ his erudition
To solve this most inviting problem yet.

So without a bit of shirking he has ever since been working
On the question with an ardor that never tires;
Yet with all his application, to his deep and great vexation,
He cannot get the answer he desires.

DOUBLE BANKING.

A Curious Court in an Alameda Precinct.

ALAMEDA, Cal., November 7.—A singular irregularity is taking place in regard to the counting of votes in the Second precinct, where the following gentlemen have been appointed officers: E. K. Kahs, J. M. Robertson, Ed Shults, F. P. Furey, Charles Metzger, George Middleton, Adolph Wolmer and Peck.

The total vote cast was 308, and the officers struggled through part of the night with the ballots. Finding, however, that the task was too severe and bade fair to result in another night's work, the board divided up into two lots, and the one made a loose copy of the ballot sheet on a piece of wrapping paper and started in counting votes in this manner, while the other half continued to use the original ballot sheet, thus balking themselves and lessening the work to be done. When the action of the board was observed this morning the matter was reported to the District Attorney's office, as it was feared that it might invalidate the election in the precinct. The action of the District Attorney is now looked forward to with some interest. As it is the count cannot be finished within five or six hours.

"THE TRIBUNE" LEADS.

Its Returns Watched by Thousands of People.

Never at any previous election, either Presidential, State or municipal, has so much public interest been manifested in the result in this city as has been centered on the results in the election of yesterday. No sooner were the polls closed than the crowd began to gather in front of THE TRIBUNE building, where bulletin boards for the display of the returns, as they were being received, had been erected during the day. By the time the first bulletins were posted, the crowd had filled Eighth street from the edge of the staging in front of the bulletin boards on the south side of the street to the buildings on the north side of the thoroughfare. The crowd was so dense that it was impossible for any one to pass through it, and it spread out fan shape to Broadway in one direction and half way to Franklin the other, every inch of ground from which a glimpse of the bulletin boards could be obtained being occupied.

The crowd was naturally mixed. It cheered the majorities for Estee when they were posted; it cheered when the returns were favorable to Budd; it yelled when the bulletin showed to the advantage of White, the Populist candidate for Sheriff. McKillican had his friends there also, and so did Schaffer, and each sent up a deafening chorus of applause whenever the figures put up for inspection warranted an outburst of enthusiasm. The hours crept on, one after the other, but still the crowd remained; still the enthusiasm of the various candidates was maintained; still the cheers of supposed victors rent the air, and not until the electric circuit was cut off, reminding them that the midnight hour had been reached, did the multitude disperse. Even then they invaded the office of THE TRIBUNE to learn the latest footings of the returns that were pouring in from the various precincts in the county, which, although incomplete and uncertain, were accepted as indications of the way the election had gone.

This morning the scene was again repeated, and all day long an enormous crowd has been eagerly scanning the returns which were bulletined as rapidly as received and compiled.

COMPANIONS IN ARMS.

Defeated Candidates Sympathize With Each Other.

This morning Sheriff McKillican and County Clerk Crane met at THE TRIBUNE office and fell into one another's arms in fellow sympathy.

"Well, Crane," sobbed the Sheriff, "I welcome your sympathies. The only difference between us is that your Waterloo came a little earlier and, perhaps, in a milder way. We are now companions in arms and in sorrow," he continued as he gave another sympathizing hug.

Planting the Standard.

All hail Columbus! Behold the great navigator as he lands. The perils of the deep are past. The clouds of fear have vanished. The night of gloom has ended. In the heavens the sun of success shines resplendent. Morning has dawned.

Imperiously the banner of haughty Spain greets the daylight. Upon its fluttering folds are inscribed the destinies of a new world. Its gleaming surface marks a long advance in the evolution of the human race. It tells a story of prophecy unparalleled, of development unapproached in the fullness of recorded time. It crowns with triumph the efforts of genius.

The World's Fair contained no finer statue of the great discoverer than this colossal figure. It commanded from its pedestal, the eastern entrance to the Administration building. The majesty of its dimensions, the vigor and aggressiveness of its expression and the artistic finish of its composition made it admired as a genuine sculptural triumph.

Another Standard Proudly Displayed

at the Fair was that of

Dr. Price's Cream Baking Powder

A Standard of Excellence for Forty Years.

It was the standard of unequalled strength, perfect purity and wholesome results. **The award to Dr Price's of highest honors at the Fair** furnishes conclusive evidence of its superiority over all other baking powders.

DOUBLE BANKING.

A Curious Count in an Alameda Precinct.

ALAMEDA, Cal., November 7.—A singular irregularity is taking place in regard to the counting of votes in the Second precinct, where the following gentlemen have been appointed officers: E. K. Kulis, J. M. Robertson, Ed Shults, F. P. Furey, Charles Metzger, George Doddleton, Adolph Wolmer and Peck.

The total vote cast was 398, and the officers struggled through part of the night with the ballots. Finding, however, that the task was too severe and bade fair to result in another night's work, the board divided up into two lots, and the one made a loose copy of the ballot sheet on a piece of wrapping paper and started in counting votes in this manner, while the other half continued to use the original ballot sheet, thus banking themselves and lessening the work to be done. When the action of the board was observed this morning the matter was reported to the District Attorney's office, as it was feared that it might invalidate the election in the precinct. The action of the District Attorney is now looked forward to with some interest. As it is the count cannot be finished within five or six hours.

"THE TRIBUNE" LEADS.

Its Returns Watched by Thousands of People.

Never at any previous election, either Presidential, State or municipal, has so much public interest been manifested in the result in this city as has been centered on the results in the election of yesterday. No sooner were the polls closed than the crowd began to gather in front of THE TRIBUNE building, where bulletin boards for the display of the returns, as they were being received, had been erected during the day. By the time the first bulletins were posted, the crowd had filled Eighth street from the edge of the staging in front of the bulletin boards on the south side of the street to the buildings on the north side of the thoroughfare. The crowd was so dense that it was impossible for any one to pass through it, and it spread out fan shape to Broadway in one direction and half way to Franklin the other, every inch of ground from which a glimpse of the bulletin boards could be obtained being occupied.

The crowd was naturally mixed. It cheered the majorities for Estee when they were posted; it cheered when the returns were favorable to Budd; it yelled when the bulletin showed to the advantage of White, the Populist candidate for Sheriff. McKillican had his friends there also, and so did Schaffer, and each sent up a deafening chorus of applause whenever the figures put up for inspection warranted an outburst of enthusiasm. The hours crept on, one after the other, but still the crowd remained; still the enthusiasm of the various candidates was maintained; still the cheers of supposed victors rent the air, and not until the electric circuit was cut off, reminding them that the midnight hour had been reached, did the multitude disperse. Even then they invaded the office of THE TRIBUNE to learn the latest footings of the returns that were pouring in from the various precincts in the county, which, although incomplete and uncertain, were accepted as indications of the way the election had gone.

This morning the scene was again repeated, and all day long an enormous crowd has been eagerly scanning the returns which were bulletined as rapidly as received and compiled.

COMPANIONS IN ARMS.

Defeated Candidates Sympathize With Each Other.

This morning Sheriff McKillican and County Clerk Crane met at THE TRIBUNE office and fell into one another's arms in fellow sympathy.

"Well, Crane," sobbed the Sheriff, "I welcome your sympathies. The only difference between us is that your Waterloo came a little earlier and, perhaps, in a milder way. We are now companions in arms and in sorrow," he continued as he gave another sympathizing hug.

Planting the Standard.

All hail Columbus! Behold the great navigator as he lands. The perils of the deep are past. The clouds of fear have vanished. The night of gloom has ended. In the heavens the sun of success shines resplendent. Morning has dawned.

Imperiously the banner of haughty Spain greets the daylight. Upon its fluttering folds are inscribed the destinies of a new world. Its gleaming surface marks a long advance in the evolution of the human race. It tells a story of prophecy unparalleled, of development unapproached in the fullness of recorded time. It crowns with triumph the efforts of genius.

The World's Fair contained no finer statue of the great discoverer than this colossal figure. It commanded from its pedestal, the eastern entrance to the Administration building. The majesty of its dimensions, the vigor and aggressiveness of its expression and the artistic finish of its composition made it admired as a genuine sculptural triumph.

Another Standard Proudly Displayed

at the Fair was that of

Dr. Price's Cream Baking Powder

A Standard of Excellence for Forty Years.

It was the standard of unequalled strength, perfect purity and wholesome results. **The award to Dr Price's of highest honors at the Fair** furnishes conclusive evidence of its superiority over all other baking powders.

"OLD IRONSIDES."

History of Oliver Wendell Holmes' Stirring Lyric.

"Old Ironsides," O. Holmes' most stirring lyric and the one which brought him recognition as a poet, says the Boston *Post*, was first printed in the Boston *Advertiser*. In 1830, as all know, the frigate Constitution, the conquering hero of many a sea fight, lay at Charlestown navy yard, condemned by an unsentimental department to be destroyed as no longer seaworthy. Dr. Holmes was then a youth of 21. He had been graduated from Harvard the year before and had spent some time in the study of law. At that moment, however, his legal studies had been abandoned and he was living quietly at home, uncertain of his future occupation. It was in the interval between his desertion of the law and his resolve to study medicine that "Old Ironsides" was written. The young man's mind was filled with enthusiasm for the achievements of our navy, and that its most famous vessel should be chopped up like any unhallowed wood naturally provoked and galled him. The feelings which the action of the department aroused in him found spontaneous expression in the poem. We say spontaneous advisedly. There was nothing deliberate about its composition; it was wholly impromptu. To the best of his recollection, he says, he wrote it on a scrap of paper with a lead pencil while standing one day before the fireplace in the old house at Cambridge. And then, without dreaming the great popularity it would win, or how effectual its protest would be, he sent it off to the *Advertiser*, where it appeared in the issue of Thursday, September 16th. As it gave eloquent voice to the sentiment of the whole country its success was both sudden and universal. The poem was copied with applause from paper to paper, while in Washington it was struck off on handbills and distributed through the city. The grand result was preservation with honor for the Constitution.

There was nothing deliberate about its composition; it was wholly impromptu. To the best of his recollection, he says, he wrote it on a scrap of paper with a lead pencil while standing one day before the fireplace in the old house at Cambridge. And then, without dreaming the great popularity it would win, or how effectual its protest would be, he sent it off to the *Advertiser*, where it appeared in the issue of Thursday, September 16th. As it gave eloquent voice to the sentiment of the whole country its success was both sudden and universal. The poem was copied with applause from paper to paper, while in Washington it was struck off on handbills and distributed through the city. The grand result was preservation with honor for the Constitution.

ST. ELMO'S FIRE.

It Burns at the Masthead of an Atlantic Liner.

NEW YORK, November 7.—The Netherlands, an American Line steamer, from Amsterdam after a most tempestuous voyage arrived this morning. She was unable to call at Cologne for passengers owing to the heavy gale.

October 30th and 31st she experienced a cyclone, and strong gales were experienced up to November 5th, when the ship ran into another hurricane, lasting four hours.

The storm was accompanied by vivid lightning and heavy rain. St. Elmo's fire was seen at the mastheads for fully fifteen minutes. The vessel received no damage.

AMUSEMENTS.

The People's.

The German Soldier was played to a good house last night at the People's Theater. Little Bobby Reilly's whirlwind dance is a strong feature of the evening, showing the great versatility of the child actor that he is. Manager Dunn's prompt and complete announcement of the election returns met with much approval by the audience. Tonight the accurate and full returns of the election will also be announced from the stage.

The German Soldier will be the bill for the entire week and Saturday matinee.

Miss Bell's Entertainment.

It is now known that Miss Bell will be greeted by a full house at the Unitarian Church tomorrow evening, and in grateful recognition of this compliment no pains will be spared to make the affair in all its appointments as chastely elegant as possible. The decorations and the young lady ushers will be especially attractive features.

The programme, embracing such notable artists as Mrs. Alfred Abbey, Hugo Mansfeldt, Constance Jordan and the University Glee Club, will be of marked interest and beauty of numbers and rendering.

BUZZARD'S BAY.

Clev land and Mugwump Associates as Land Monopolists.

A Boston correspondent of the Philadelphia *Press* says: Grover Cleveland, with some of his Mugwump associates, has "cornered" the land market in Buzzard's Bay in a way suggesting a regular "communism of pelf."

"The Buzzard's Bay Company" is the title of the combination of capital which has bought up for small sums all the available land on Buzzard's Bay, and will sell it out for large amounts, and since it has secured a monopoly there it can put its foot upon "free competition, which is the life of honest trade," even in lands.

President Cleveland is the chairman of the Board of Trustees of this combination, and the other trustees are Moses Williams and William Minot Jr. of Boston. Mr. Williams is a Mugwump and a member of the Massachusetts Reform Club, and has as strong an antipathy to combinations of capital as has Mr. Cleveland. Some time ago the trustees sent out a circular giving the purpose and work of the company, but it has been for the most part called in. It was feared that it would injure the party to have it circulated too freely, but there are still several copies extant.

The circular states that the company has cornered all "that remains available" of the land in Buzzard's Bay, some 3000 acres, and comprising eighteen miles of water front.

Salt Water in Cement.

In the opinion of Dr. Michaelis of Berlin the greatest enemies to the permanency of the Portland cement used in marine structures are the sulphates contained in sea water. If there is any great quantity of alumina and ferric oxide in the cement the structure breaks up sooner than otherwise. This is accounted for by the fact that the sulphate forms, with the aluminate and ferrate of lime, a number of crystalline compounds, such as basic sulphate of lime, alumino-sulphate, and ferro-sulphate of lime. These compounds take up a large quantity of water of crystallization, so that the total volume is much increased. Hence the weakness and disintegration of the cement structure. Dr. Michaelis considers that the separation of hedrate of magnesia is quite innocuous, for it is only displaced from its solution in the form of a flocculent, slimy hydrate, which, if anything, is useful in stopping the pores. His general recommendation to users of concrete for marine work is to choose a cement rich in silicia and as poor as possible in alumina and ferric oxide and to envelope the structure with an impermeable mixture composed of one part of cement with two to two and one-half parts of sand of mixed grain, of which at least one-third should be very fine sand, and to this the requisite amount of ballast should be added.

And you are hereby notified that if you fail to appear and answer the said complaint, as above required, the said plaintiff will apply to the Court for the relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the county of Alameda, State of California, this 8th day of October, in the year of our Lord one thousand eight hundred and ninety-four.

ST. ELMO'S FIRE.

It Burns at the Masthead of an Atlantic Liner.

NEW YORK, November 7.—The Netherlands, an American Line steamer, from Amsterdam after a most tempestuous voyage arrived this morning. She was unable to call at Cologne for passengers owing to the heavy gale.

October 30th and 31st she experienced a cyclone, and strong gales were experienced up to November 5th, when the ship ran into another hurricane, lasting four hours.

The storm was accompanied by vivid lightning and heavy rain. St. Elmo's fire was seen at the mastheads for fully fifteen minutes. The vessel received no damage.

AMUSEMENTS.

The People's.

The German Soldier was played to a good house last night at the People's Theater. Little Bobby Reilly's whirlwind dance is a strong feature of the evening, showing the great versatility of the child actor that he is. Manager Dunn's prompt and complete announcement of the election returns met with much approval by the audience. To-night the accurate and full returns of the election will also be announced from the stage.

The German Soldier will be the bill for the entire week and Saturday matinee.

Miss Bell's Entertainment.

It is now known that Miss Bell will be greeted by a full house at the Unitarian Church tomorrow evening, and in grateful recognition of this compliment no pains will be spared to make the affair in all its appointments as chastely elegant as possible. The decorations and the young lady ushers will be especially attractive features.

The programme, embracing such notable artists as Mrs. Alfred Abbey, Hugo Mansfeldt, Constance Jordan and the University Glee Club, will be of marked interest and beauty of numbers and rendering.

BUZZARD'S BAY.

Cleveland and Mugwump Associates as Land Monopolists.

A Boston correspondent of the Philadelphia *Press* says: Grover Cleveland, with some of his Mugwump associates, has "cornered" the land market in Buzzard's Bay in a way suggesting a regular "communism of pelf."

"The Buzzard's Bay Company" is the title of the combination of capital which has bought up for small sums all the available land on Buzzard's Bay, and will sell it out for large amounts, and since it has secured a monopoly there it can put its foot upon "free competition, which is the life of honest trade," even in lands.

President Cleveland is the chairman of the Board of Trustees of this combination, and the other trustees are Moses Williams and William Minot Jr. of Boston. Mr. Williams is a Mugwump and a member of the Massachusetts Reform Club, and has as strong an antipathy to combinations of capital as has Mr. Cleveland. Some time ago the trustees sent out a circular giving the purpose and work of the company, but it has been for the most part called in. It was feared that it would injure the party to have it circulated too freely, but there are still several copies extant.

The circular states that the company has cornered all "that remains available" of the land in Buzzard's Bay, some 3000 acres, and comprising eighteen miles of water front.

Salt Water in Cement.

In the opinion of Dr. Michaelis of Berlin the greatest enemies to the permanency of the Portland cement used in marine structures are the sulphates contained in sea water. If there is any great quantity of alumina and ferric oxide in the cement the structure breaks up sooner than otherwise. This is accounted for by the fact that the sulphate forms, with the aluminate and ferrate of lime, a number of crystalline compounds, such as basic sulphate of lime, alumino-sulphate, and ferro-sulphate of lime. These compounds take up a large quantity of water of crystallization, so that the total volume is much increased. Hence the weakness and disintegration of the cement structure. Dr. Michaelis considers that the separation of hedrate of magnesia is quite innocuous, for it is only displaced from its solution in the form of a flocculent, slimy hydrate, which, if anything, is useful in stopping the pores. His general recommendation to users of concrete for marine work is to choose a cement rich in silicia and as poor as possible in alumina and ferric oxide and to envelope the structure with an impermeable mixture composed of one part of cement with two to two and one-half parts of sand of mixed grain, of which at least one-third should be very fine sand, and to this the requisite amount of ballast should be added.

The California Improvement Company (a corporation), plaintiff, vs. Caspar Cohen, The German Savings and Loan Society (a corporation), Alice K. Cooley, Mr. J. A. Randolph Mohr, John Doe and Richard Roe, defendants.

Action brought in the Superior Court of the County of Alameda, State of California, and the complaint filed in said County of Alameda, in the office of the Clerk of said Superior Court.

claim the Sheriff, Assessor and Coroner; the Populists claim the District Attorney. The Republicans concede Sheriff, District Attorney and Assessor, but claim the Coroner.

SAN FRANCISCO, November 7—*Bulletin*—At 9 o'clock this morning, partial returns had been received from 630 precincts in California including 290 precincts in San Francisco, out of a total of 2274 precincts in the State at large. These show a total vote of 102,043, and result for Governor as follows: Estee, 24,589; Budd, 31,001; Webster, 9150.

JACKSON, Cal., November 7.—Incomplete returns indicate election of Tibbitts (Rep.) Assemblyman, and Voorhies Senator.

Caminetti is not running as well as last election. He will not get more than 250 majority in the county.

SEATTLE, Wash., November 7.—About one-fourth of the vote of the entire State has been received. The Republicans will probably carry the State by about 15,000 and the Legislature will be Republican by a safe majority, insuring the election of a Republican Senator to fill the existing vacancy. Two Republican Congressmen will undoubtedly be elected. Returns received show the following result: For Congressmen, Doolittle, Rep., 8723; Hyde, Rep., 8564; Houston, Dem., 2474; Caton, Dem., 2530; Adams, Pop., 4969; Van Patton, Pop., 4730.

SAN FRANCISCO, November 7.—It is apparent that Grove L. Johnson has defeated Congressman Caminetti in the Second district.

Complete returns from ninety-five precincts give Johnson (Rep.), 4580; Caminetti (Dem.), 3449; Cornell (Pop.), 3212.

SAN JOSE, Cal., November 7.—Complete returns from forty-three precincts out of sixty-one in this county give the following result for Governor: Budd, 2329; Estee, 2079; French, 534; Webster, 841.

NAPA, Cal., November 7.—Estee's plurality in this county is 545, with three precincts yet to hear from and they will not materially change these figures. Barham has probably a plurality of 300 in county and Wade is elected Assemblyman.

Mexico's Unlucky Day.
Boston Herald.

Tuesday is the unlucky day in Mexico. If you were born on a Tuesday never admit it. You probably have been a disaster all your life, but people will firmly believe that you are an unlucky dog and have the evil eye into the bargain if they find that a Tuesday was honored with your birth. I know a man who started on a Tuesday with money to pay off the hands in a factory near the city, and I went instead to Acapulco, where he took the Panama steamer. The Board of Directors of the manufacturing company passed a resolution affirming their undying faith in his honesty and attributed his error to having started for the mill on Tuesday.

A Panorama of America!

If it were possible to rise to an altitude sufficiently high to permit an observer to view through a telescope the whole of North America at one time, what a wondrous spectable would meet his gaze. From sunny lands where zephyrs are redolent with the breath of orange blooms, regions where frosted peaks catch the gleams from Ithurial's spears and bathe glacial rivers in a light that rises from behind the polar throne. By its magic pages we are taken across the great plains into the heart of the mighty Rockies, and set down amid the witchery of chaotic nature. Thence to the Yosemite, and the wondrous Northwest to Alaska's icy climes. Back again over mountainous ways to Yellowstone Park, thence on by Minnehaha's laughing waters to Superior's pictured shores, by Niagara's raging flood to the deep forests, mountains, rivers and gorges of

Canada and the Northwest.

Thence into the smoky and Blue Ridge ranges, by famous battle-fields, the Natural Bridge, through the Dismal Swamp and whitened cotton fields into the lands of perennial summer. And while giving pictures of surprising beauty, **Glimpses of America** also

A Panorama of America!

If it were possible to rise to an altitude sufficiently high to permit an observer to view through a telescope the whole of North America at one time, what a wondrous spectable would meet his gaze. Beautiful as it might appear, yet the vision would not be half so satisfactory as that which is afforded by the **Great Pictographic Portfolio,**

Glimpses of America

Which THE OAKLAND TRIBUNE is now distributing among its subscribers. It is a grand procession of scenic wonderlands pictorially presented in a realism that is bewilderingly charming. By means of this most exquisite of all art works, the reader is carried in his easy rocking-chair to

Thence into the smoky and Blue Ridge ranges, by famous battle-fields, the Natural Bridge, through the Dismal Swamp and whitened cotton fields into the lands of perennial summer. And while giving pictures of surprising beauty, **Glimpses of America** also
